

East Allen University

East Allen County Schools are Making it Happen!

OUR PROMISING PRACTICE

East Allen University is a tremendous partnership between East Allen County Schools and Vincennes University. We began serving students in 9th grade in SY12/13 and have added an additional grade level each year. Now, in 2016, we have successfully prepared 77 students to graduate with a high school diploma and 63 of those students will also receive an Associate Degree from Vincennes.

According to Doug Hicks, Principal at East Allen University, "Our faculty and staff work diligently to ensure that each student is provided with the individual instruction they need to succeed. Our enrollment is growing as excitement and energy about our program is communicated with our community. This is truly a team success story and we look forward to many years of helping students achieve their dreams!"

OUR STEPS

Students residing within our East Allen County School boundaries are eligible to request participation in the EAU program. Students focus their days upon learning and successfully completing the requirements for both their high school diploma and their Associate Degree. The Associate Degree is conferred on students meeting the requirements. The degree earned is valid for transfer credit at any Indiana college and many colleges throughout the country.

WE ARE

East Allen University is a high school (grades 9-12) within East Allen County Schools (EACS). We are located in Northeast Indiana.

OUR STUDENTS & FAMILIES

East Allen University (EAU) serves 305 students in grades 9-12. 2016 marks our first EAU graduating class and 77 students have met the requirements to receive their high school diploma.

OUR TEACHERS

Our 15 teachers help EAU students and staff to build relationships with families and provide the opportunity for so many to be first-generation college graduates while receiving their high school diploma.

IN OUR OWN WORDS

"East Allen University provides an exceptional, accelerated learning experience through the collaborative efforts of East Allen, Vincennes University, families, and the community. Vincennes University is honored to support East Allen University's goals to aggressively increase college completion rates, decrease college costs, and promote college preparedness and success for all students. We are excited about our Early College program's preparation of students for their futures today!"

~ Dr. Odelet Nance, Vincennes University
